

479-000, all as more fully set forth in the request on file with the Commission and open to public inspection.

Williams Gas proposes to abandon by reclaim a positive meter setting (used for peaking) and an orifice meter setting and appurtenant facilities serving the Iola power plant and replace them with a multiple run meter settings and appurtenant facilities at the same location in Section 27, Township 24 South, Range 18 East, Allen County, Kansas. The power plant has installed new power generation equipment which requires that Williams replace the existing meters with meters capable of handling the increased volume.

Williams states that the cost to replace the two settings is estimated to be approximately \$152,455 and the cost to reclaim the old facilities would be approximately \$1,500. Williams further states that the peak day volume is not expected to increase; however, the non-coincidental peak day volume could increase to 5,100 Dth/day due to the installation of new power generation equipment.

Williams reports that the exchange is not prohibited by an existing tariff and that it has sufficient capacity to accomplish the deliveries specified without detriment or disadvantage to its other customers.

Any person or the Commission's staff may, within 45 days after the Commission has issued this notice, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the NGA (18 CFR 157.205) a protest to the request. If no protest is filed within the allowed time, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the NGA.

Williams Gas Pipelines Central, Inc.; Notice of Proposed Changes in FERC Gas Tariff

July 7, 1998.

Take notice that on July 1, 1998, Williams Gas Pipelines Central, Inc. (Williams), tendered for filing to become part of its FERC Gas Tariff, Original Volume No. 1, the following tariff sheet, with the proposed effective date of August 1, 1998:

First Revised Sheet No. 297

Williams states that on April 16, 1998, the Commission issued Order No. 587-G (Order). The Order incorporated by reference, in Section 284.10(b), the most recent version (Version 1.2) of standards promulgated by the Gas Industry Standards Board (GISB). These business practices standards supplement standards adopted by the Commission in Order Nos. 587, 587-B, and 587-C. Pipelines were required to comply with regulations by August 1, 1998. Williams states that the purpose of this filing is to revise the tariff in compliance with the Order.

Williams states that a copy of its filing was served on all of Williams' jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest this filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
